

Damselfs and Dragons of Wisconsin and Minnesota

Join us for this fun, informative introduction to the insect order Odonata which includes Dragonflies and Damselflies. Naturalist and wildlife photographer Dan Jackson will talk about the biology and life history of this order as well as offer pointers on their identification.

Doors open at 5:30pm. The presentation runs from 6pm–7pm, followed by a Q&A. This is a FREE event (*donations welcome*) sponsored by the Friends of the Refuge Headwaters. Learn more:
